

Dear Jim,

Thank you so much for the card. It really meant a lot to us. Missy was a great pet. She was loyal and loving. I just couldn't stand to see her suffer any more.

She was a very smart dog. She was great with kids. Not one time did she ever put any of the kids toys in her mouth. Even when our grandchildren were babies and we would put them on a pallet on the floor, she would just lay down beside them as if she was protecting them. She would always get mad at us when we brought her to see you. Who ever took her she would get mad at that person and chew up their shoes and believe me she knew whose shoes belonged to whom. She was very protective toward us. She has chased off a Chow , a Rockwallier , a Blue healer or just any dog that crossed over into our yard. We belonged to her and she wasn't going to allow another dog around.

I want to Thank you and Angie for all the great care that you gave Missy. You are a great veterinarian. You treat all your patients as if they were your very own. When and if we decide to get another dog we will bring them to you.

Thank you again,
Marsha
