

NO MORE HAIR !

The anti-shedding treatment is a special way to remove all of the dead hair that keeps on falling out in your lap, clothes, furniture, house, and car.

Our groomer, Cristy, uses a special shampoo that cleans the coat and loosens up the follicle of the dead hair so it can be removed. Next, a conditioner is applied to soften and strengthen the healthy hair. Cristy then uses a special tool that strips away the dead hair from the body only to leave the strong, healthy, revitalized coat. In most dogs 80–90% of all shedding stops for about a month. There are some breeds such as the Husky or Chow that the treatment doesn't last as long but still has a dramatic difference in their shedding. In some cases, a return in 10 days after the treatment for another carding with this special tool to remove any more hair that might have loosened due to the treatment.

ANTI- SHEDDING TREATMENT

Groomer: Cristy

ALL DAY EVENT

Due to the length it takes to perform this treatment your pet will need to stay with us for several hours. The bath itself takes about 30 minutes then there is drying time. Next the carding treatment can take as long as 2 hours pending on how much dead hair is removed. Your pet will have a break in the play yard to get some exercise and a potty break with water, snacks and lots of love!

PRICE LIST

THE PRICES ARE CALCULATED BY THE BODY WEIGHT, MASS AND TIME IT TAKES TO DO THE CARDING TECHNIQUE.
